Deeza Increases Customer Satisfaction Through Online Training

[Print](#) [Send](#)In [March 25, 2008](#) / [default](#)

Deeza, a manufacturer of high-quality chassis parts for more than 35 years, offers online training with the flexibility to meet its customers' schedules.

Through its e-learning platform, Deeza presents training on a host of topics, including:

- Chassis parts fundamentals and the Deeza difference;
- How to install a part;
- How to uninstall a part;
- How to properly maintain a part;
- How to spot a faulty part;
- Checklists before and after installation; and material specifications, lubrication, resistance against changing environmental conditions.

**CLICK HERE to****S**

Online training is open to corporate customers via a password-protected system that can be accessed worldwide.

Deeza manufactures private label parts for many high-profile trademarks throughout the world.

For more information on Deeza chassis parts and products, contact the Deeza sales representatives or visit www.deezachassis.com.
